### EXAMINER'S AMENDMENT

1. An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on August 6, 2004, Mr. Craig Waller requested an extension of time for 1 MONTH(S) and authorized the Director to charge Deposit Account No. 11-1110 the required fee of \$110.00 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. The application has been amended as follows:

line 10, the following has been inserted after "elevation":

--such that said surface of said infeed platform is  
substantially--;

line 12, "is" has been changed to the following:

--and said infeed extension are--.

#### Remarks

3. The above changes were agreed upon to further clarify the claimed invention.

#### Additional Prior Art

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The newly-cited prior art disclose inventions which have features similar to the claimed invention. However, these inventions, each taken alone or in combination with the prior art of record, do not teach or fairly suggest the claimed invention.

#### **Reasons for Allowance**

5. The following is an examiner's statement of reasons for allowance:

The prior art of record, either taken alone or in combination, does not teach or fairly suggest the claimed invention. For example, the prior art of record does not teach or suggest the combination of claimed features including a cutting device (i.e., a device that performs a cutting function) comprising a work surface

as claimed; an infeed rail as claimed; a workpiece guide as claimed, wherein the workpiece guide comprises a fence body, an infeed extension as claimed, the infeed extension comprising an infeed platform as claimed, and an adjustment mechanism as claimed, wherein the infeed rail and the infeed extension are configured as claimed. Further, applicant's arguments with respect to the prior art rejection filed in the response of February 9, 2004 are considered to be persuasive, particularly the paragraph bridging pages 7-8 of the response.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
